SOLUTION OVERVIEW

-  **STEP 1:** Choose the package that best suits your business
-  **STEP 2:** Choose your hardware. This can be anything from using an existing on-site system, to new traditional, IP or Hosted solution.
-  **STEP 3:** Choose your connectivity of choice. We can advise you correctly and offer the right solution for your needs.
-  **STEP 4:** Let our technical team and dealer channel assist you with the installation
-  **STEP 5:** Enjoy the benefits of VoIP and save

NEED MORE HELP?

- 1** Use one of the Anywhere bundles and replace traditional copper lines with the bundled SIP trunks. Benefit by using the inclusive minutes per package.
- 2** Use one of the Anywhere bundles, connect your PBX and link the PBX extensions to a hosted extension and enjoy hosted features including mobility. Connect up to 4 devices on one extension. A traditional desk phone, PC, mobile phone, or remote home extension.
- 3** Use the Anywhere bundle as a fully cloud based hosted solution and upgrade your office to hosted bundled with IP phones. Benefit from the Anywhere all-inclusive minutes.
